

COOL CATS based on **FASHION** Come and Go,

but if based on **HEALTH & BEAUTY** - will always stand out from the crowd.

Let **Nature's PYRAMID PENDANT** - help you **STAY HEALTHY and YOUNGER LOOKING.**
(see data on Pyramid Energy and Scientific Proof).

QUARTZ CRYSTAL GEMSTONE

- * Is what my Pendants are made from.
- * Pure rock crystal quartz is classed as a gemstone, just like sapphire and diamonds.
- * It is very hard, so expensive and difficult to shape, it took me a while to find a manufacturer who could cut the Pyramid shape and drill holes for the cord. quartz crystal will scratch glass.
- * Most jewellery advertised as crystals are made from a synthetic chemical called k9, because it is very cheap to make and easy to shape. It is really like shiny plastic.
- * I have been told several times that I should sell my pendants for 10 times the price, because of its revolutionary health properties, but I would like every one on the planet to be able to afford one - so \$19.90 is a real bargain, and it is a once in a lifetime investment, because it will last forever.
- * A unique feature of clear rock crystal quartz, is its internal chemical structure of a 6 sided atom, a hexagon, just like cells in a beehive where honey is stored. The early computer chips were made from this to store and emit information, and are widely used today for that storage property.
- * My pyramid quartz crystals of course, store and emit PYRAMID ENERGY - that NATURE creates whenever there is a 4 sided Pyramid shape.
- * As well as that I have added an extra feature to my quartz crystal pyramids - I have encoded the frequencies of the properties of 3 very special essential plant oils - to be stored forever.

THEY ARE:

ALPINIA ZERUMBET - a rare plant growing in the amazon jungle, the roots have incredible healing properties, used by locals for many ailments, and deep relaxation.

THYMUS VULGARIS - a very powerful anti oxidant, anti bacterial and anti viral oil.

BENZOIN STYRAX - an incredible anti oxidant and cell healing oil. I have used it a few times with people to clear up ulcers.

* Having the properties of these 3 special plant oils - adds an extra dimension to my Pendants - as well as having the 2 properties of Pyramid Energy, of neutralising TOXINS and enhancing positive energy.

* I rubbed these 3 oils on my legs twice a day, to remove wrinkles and Rheumatoid Arthritis - before I discovered the power of PYRAMID ENERGY.

* So my gemstone Pendants are truly special - the result of many years of research and testing - of NATURE'S most powerful resources.

My Pendants are a lifetime investment for staying healthy.
