

To **LOOK YOUNGER** can start happening very quickly - but only with the help of **NATURE**.

- * The main thing that guarantees getting **YOUNGER LOOKING** is that your **Hypothalamus Master Gland** in the Brain is working properly.
- * This is because it controls everything in our body.
- * You also need to be getting enough **REAL NUTRIENTS** from your food.
- * You also need to be absorbing **Nature's PYRAMID ENERGY** from a **Pyramid Pendant**.
- * **THEN**, you are pretty much guaranteed to start **LOOKING YOUNGER**.

- * It is not rocket science - but a combination of Medical Science and Pure Nature.
- * The HMG in the Brain receives electrical messages from the Nervous System, telling it what needs fixing - and then the HMG sends chemical instructions to other Master glands and organs telling them what Hormones or Immune cells need to be produced to fix the problem.
- * The HMG gets dysfunctional if excess **TOXINS** accumulate in the brain, and then also creates Inflammation.
- * This is when wearing a Pyramid Pendant Rejuvenates the HMG to Peak condition.
- * Watching Brain scans while wearing a Pendant confirms this is happening.
- * The HMG needs **REAL NUTRIENTS**, including fibre - to have healthy cells, and the best option is to include some **SUPERFOOD** in your diet.
- * Wearing a Pyramid Pendant and having a few tablespoons of **SUPEROOD** on one day will spin you out - because the next day you will **SEE** smooth, tight **SKIN** - the first visible proof that you are already **LOOKING YOUNGER**. This is because Hormones that extract Nutrients from our food, to send to our skin, have also been quickly rejuvenated.
- * Having a functional HMG also strengthens the Immune System, so any ongoing pains such as Arthritis will dissipate and never return - while wearing a Pyramid Pendant - this happened to me, I have not had my Rheumatoid Arthritis pain for over 12 years.
- * So if you are feeling Healthy, you will **LOOK HEALTHY**.
- * Disclaimer: - The Pyramid Pendant is not a treatment for any medical condition - but **PREVENTS** Health issues developing.
