

Surprisingly, for most people - it is easy to PREVENT ongoing PAIN by wearing a Pyramid Pendant.

To ADDRESS sudden acute pain - hold a Pyramid at the top of the nose.

- \* I once had my own Pain Relief clinic in Sydney, where I used essential plant oils and infrared lamps to treat mostly back and joint pains. I used anti inflammatory and anti bacterial oils such as Oregano, Benzoin and Thyme.
- \* They were effective at 2 levels - firstly to remove Inflammation and pain at the physical location, and secondly at Rejuvenating the Hypothalamus Master Gland - which then enhances the Immune System.
- \* Pain Relief can now be achieved even better with Pyramid Energy from a Pendant.
- \* After getting the horrible Rheumatoid Arthritis, I was quickly able to get rid of the worst of the pain with essential oils, and then by wearing a Pyramid Pendant - because RA is an Immune System dysfunction - and Pyramid Energy from the Pendant strengthens the Immune System. I have not had the RA ever since, or ever will.
- \* Pain Relief is my favourite topic - because I can now relieve any type of pain, at any location in the body.
- \* To be able to do this quickly and effectively requires holding a Pyramid at the top of the nose - even one from a Pendant will work. If it is a pain that just arrived, chances are that it will quickly go.
- \* Intense chronic pain is also now, able to be relieved within minutes.
- \* I had a few instances of intense abdominal pain and tooth infection, and each time i was on the verge of ringing for an ambulance - when within a few minutes - all pain had gone, by using my Pyramid laser. It is Star Trek fantasy come true - my best 1st aid tool.

- The PAIN itself is the Nervous system telling the Hypothalamus Master Gland in the Brain that there is an issue somewhere that still isn't fixed.
- The Hypothalamus then initiates the production of any needed Hormones or Immune cells - by sending chemical instructions to other Master Glands or Organs.
- Then the healing process continues and pain gradually subsides.
- This only has a successful outcome if the Hypothalamus is fully functional - and hasn't been compromised by Toxins or Inflammation.
- Generally, PAIN is a message - telling us that our Immune System hasn't been able to address an issue.
- Nature's PYRAMID ENERGY that we absorb from a Pendant - Rejuvenates Hypothalamus function, which is demonstrated on brain scans when wearing a Pendant.
- This is why PAIN RELIEF by wearing a Pyramid Pendant is a Reality - because we are strengthening the Immune System by Rejuvenating the Hypothalamus.
