

**Sad but True - we are a WALKING WAREHOUSE of TOXINS,
- if we have gained EXCESS BODY WEIGHT.**

- 1. We can not avoid ingesting TOXINS from the environment, including bacteria, virus and Toxic man made chemicals.**
- 2. Our body just can't break them all down, so they accumulate and get stored in normal Fat tissue.**
- 3. This is the ROOT CAUSE of WEIGHT GAIN.**
- 4. The biggest daily culprit is SYNTHETIC CHEMICALS in the FOOD we eat, especially preservatives and artificial sweeteners.**
- 5. A Daily Weight Loss Regime - using SUPERFOOD and small portions of food, will convert FAT into KETONES, and that gets burned as an energy source - and so we lose weight.**
- 6. Problem is - that TOXINS still keep accumulating in our fat tissue.**
- 7. Diet and Exercise - will not remove the TOXINS.**
- 8. Even cosmetic surgery may remove Fat - but still leaves a 'chubby' look because it doesn't remove TOXINS.**
- 9. NATURE can help by Rejuvenating the HYPOTHALAMUS Master Gland when wearing a Pyramid Pendant.**
- 10. This restores the HORMONES and Immune cells - needed to break down TOXINS continuously.**
