

**MUSIC THERAPY** has long been used to improve Health.

One effective example is this 1 hour Music CD, which I had made, originally to help improve my mother's sleep.

I can Email a digital copy to anyone who would like one.

- \* I once bought a CD from a prominent psychiatrist, electronic sound at the Low DELTA frequency.
- \* It seemed o.k. and I could see that he was using the notion that this was the deepest relaxing frequency, which would help people sleep.
- \* I wasn't happy though, that putting in just one brainwave frequency - would also unbalance the homeostasis of the whole brainwave condition - especially Hypothalamus function and Hormone production. But that was what his treatments were based on - using a specific line of action to treat a specific symptom, without too much regard for any side effects.
- \* This was also the time i was working with my first Brainmaster unit and laptop - measurements of as many people as I could.
- \* I'd get people to put on a pair of headphones and listen to my Peak Performance music CD as I looked at the Brainwave patterns - which were almost as good as the ones from wearing a Pyramid Pendant a few years later.
- \* I had a local sound studio, ATLAB - put on 5 layers of sound, one from each of the frequencies of Delta, Theta, Alpha, High Beta, and very high Gamma.
- \* The final product was a smooth, relaxing, electronic sound - with no instrumentals, nature sounds, or anything else. I tested quite a lot of people - some with headphones, others playing this sound CD on a CD player.
- \* I tested it on:
  - PRESCHOOL age children - which worked brilliantly on 2 year olds in their afternoon sleep session.
  - INFANTS age - who found it calming.
  - PRIMARY AGE - which helped them settle in class after a lunch break. Also SPECIAL SCHOOLS, where children were better able to focus on their tasks.
  - HIGH SCHOOL AGE - students were able to concentrate for longer
  - UNIVERSITY AGE - where I took a group of 20 and gave them each a pair of headphones and an mp3 player, about 3 weeks before their exams. They studied for an hour, and then each gave me their feedback. All said that they were able to focus better, and able to easier commit data to memory, without having to read over and over the same material. A couple even said that this was the first time ever, that they were even able to concentrate on exam study. I gave them a copy of the CD which they could make their own copies.
  - And of course, ADULT AGE - where Health professionals and therapists all said they wanted to buy a copy - chiropractors, massage therapists and Yoga teachers.
- \* I even did live radio interviews - for 15 minutes, where I also brought with me a live testimonial - of someone who had used the CD and explained how it helped them. My phone started ringing within a few minutes into the interview, and my assistant was taking orders from people wanting to buy one. I even had one chap who wanted to buy one, to relax peacefully, because he was dying from Cancer.
- \* This CD was certainly a true music therapy tool.
- \* The secret to its effectiveness was getting balanced brainwaves - similar to wearing a Pyramid Pendant.

## PYRAMID PENDANT PROMOTION

**Absorbing Nature's PYRAMID ENERGY - Rejuvenates our MASTER Gland  
to help Maintain our HEALTH.**
