

- * **HEALING GURUS** are a special breed of people that are in incredible **GOOD HEALTH**.
- * They **TRANSFER** this to a Patient by putting their Hands by their **HEAD** - to **TRANSFER** their **BRAINWAVE PATTERNS**.
- * The patient then heals - **WHILE THEIR BRAINWAVES** are in this **BALANCED** pattern - with their own body's resources.

- * **HEALING GURUS BRAINWAVE** Patterns would look like this - balanced, high amplitude Brainwave frequencies.
- * Only about 3/4 of perfect as that when wearing a Pyramid Pendant - but very impressive, for achieving this with Meditation, even if it took 20 years to do.
- * This brainwave pattern is what a lady patient who fell off her push bike may have looked. I have lost the original black and white ones.
- * Story started in late 1970's, when 2 Englishmen, one a high rated Meditation guru, and the other an electronics engineer, who had just invented a machine to measure Brainwaves.
- * This was a major event, so they organised a weekend seminar in Canada.
- * They called the new machine the **Mind Mirror**, and measured everyone's Brainwave pattern, including some Healing Gurus who also came to the seminar.
- * They all had spectacular Brainwaves - high amplitude, and including bottom 2 Delta and Theta.
- * Then the lady with the hurt knee asked if a guru could help her - but they were both asked to be connected up to a mindmirror machine before starting.
- * As expected, the lady's brainwaves were low amplitude, and mainly high frequency Beta - the guru of course had the spectacular Brainwave pattern.
- * The guru was asked to place his hands on her head - and immediately her patterns changed - to exactly the same as his.
- * This explains how they are able to do hand healing - it is no longer a mystery. Because of his incredible Health - confirmed by his Brainwave patterns - he transfers his healthy Brainwave pattern to his patient - whose own body is then able to heal itself.
